

Hygiene measures

Every day we experience that this is a very special year. This is precisely why we, as organisers, strive to bring real highlights back into your everyday life with our fairs and events. With a lot of responsibility and care, of course.

With the following measures, we ask you to take your **own responsibility** for the safety of everyone at the fair:

- wear the obligatory mouth-and-nose protection on the entire area (exception: outdoor areas)
- always keep a minimum distance of 1 meter to all persons not living in the same household as you
- no shaking hands
- Wash and disinfect hands regularly. Dispensers that can be operated without contact are available throughout the entire area
- Cough and sneeze in the crook of your arm

If you feel ill, please do not visit the fair in the interest of the health and safety of all. If you are already on site and suddenly feel ill, please dial 1450 immediately or contact the local medical team.

As an organizer we do our best to offer you a safe event. With great experiences and profitable contacts. For your safety we have rescheduled the exhibition this year:

- separate entrances and exits
- especially wide corridors
- maximum fresh air supply in all halls
- safety devices at narrow spaces
- area-wide disinfectant dispensers
- increased cleaning intervals for all sanitary areas and contact surfaces
- and much more.

With attentiveness and care, the Classic Expo Salzburg 2020 will be diverse, successful and full of wonderful experiences for all participants! We are looking forward to it.
